CAREER OBJECTIVES

I want to grow myself as a Software Developer who love Programming, Developing and Passionate about learning new technologies. I'm a fast learner and can quickly integrate into team.

WORK EXPERIENCE

Software Engineer (Frontend)

BEM Group

September 2023 – Present

- Working with PureSounds project which is basically copyright free sound effect platform by which studio user will upload sound effects and normal user will be able to play, purchase, filter and also able to generate AI music.

Software Engineer

Vemate

December 2021 – August 2023

- Worked with Blockchain team to generate smart contract for Binance (BSC) based Crypto token named Vemate (VMT).
- Developed own staking system for Vemate having three different pools.
- Worked for generating smart contracts for making Binance based fractionalized non-fungible token(NFT) marketplace.

PROJECTS

Pure Sounds

This is basically copyright free sound effect platform by which studio user will upload sound effects and normal user will be able to play, purchase, filter and also able to generate AI music.

- Frontend: ReactJS, NextJS
- State Management: Redux toolkit

Doctor's Portal

Complete doctor's portal where only authorized user can take appointment and can pay the fee using stripe. On the otherhand, admin can add, manage admins.

- Frontend: ReactJS, Tailwind CSS
- Backend: ExpressJS, NodeJS
- Database: MongoDB
- Authentication: Firebase

Vemate Token

This is basically a Binance based crypto token named Vemate(VMT) which is audited by Certik. Also generated smart contract for private sale with staking and vesting system separately.

- Language: Solidity
- Tools: Remix IDE

TECHNICAL SKILLS

- Languages:** Javascript, Solidity, Python
- Web Technology:** ReactJS, NextJS, ExpressJS, NodeJS, Styled Components, Bootstrap, Tailwind, HTML5, CSS
- DBMS:** MongoDB, Firebase
- State Management:** React Redux, Redux Toolkit
- Version Control Tool:** Github, Gitlab, Git
- Tools:** VSCode, Jira, Postman, Slack, Trello, Latex, Openzeppelin Defender, Remix, Truffle Ganache, Pycharm

SOFT SKILLS

Hard-working

Team Work

MS-Office

Quick Learning

EDUCATION

BS in Computer Science and Engineering

North South University

2016 – 2020

CGPA : 3.10

Higher Secondary Certificate

Shahid Syed Nazrul Islam College

2012 – 2014

GPA : 5.00

Secondary School Certificate

Imambari High School

2010 – 2012

GPA : 5.00

RESEARCH WORKS

Comparison of Facial Recognition Algorithms for Criminal Detection

Supervisor: Dr. Md. Mahfuzur Rahman

- Dataset: ORL, Yale
- Algorithms: FisherFaces, EigenFaces, LBPH
